Description

Azenha is a stunning, beautiful mare! When we first saw her in Brazil we thought she was a stallion because of her bold movement in the ring. She will take your breath away.

Her personality and intelligence are instantly apparent. She loves people and has a wonderful soft, kind eye. She tries very hard to do what you want in the arena and on the trail. She has a very smooth walking gait and a fast marcha that is also easy riding.

Azenha is a daughter of the similarly striking Laio de Maripa, an ELITE book stallion in Brazil. Her pedigree and bloodline are unique in the US. She is a mix of Herdade and Abaiba blood. The Maripa farm in Brazil is known for breeding beautiful animals and also for focusing on long distance, high-energy horses. Azenha is a great example of their breeding philosophy.

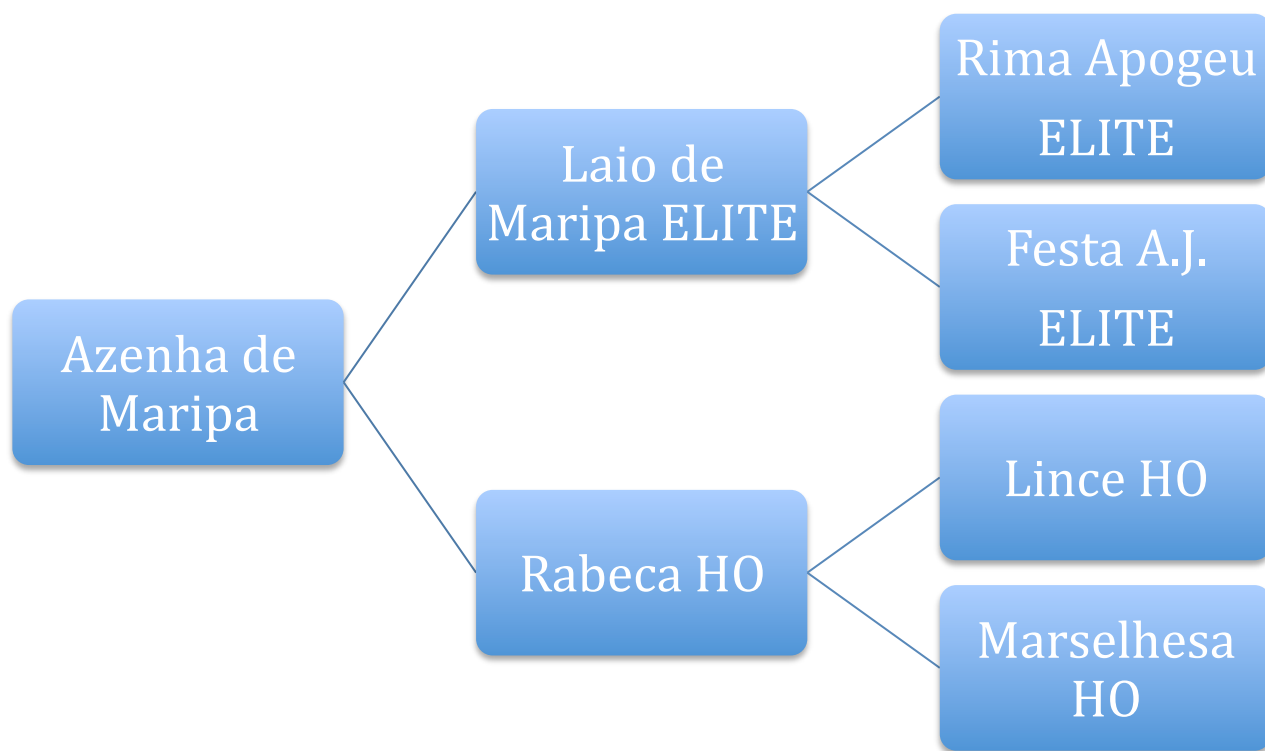

Breed to Azenha for these results:

- ✓ Beautiful head and look
- ✓ More energy
- ✓ More refinement and elegance
- ✓ An athletic versatile show or sport horse
