Description

Brasilia represents the new tradition "nuevo tradicao" breeding of Brazil, the LJ lineage that is winning championships in Brazil. She is a black bay - a big body with very correct conformation, upright and alert. She is already a dynamo, but very sweet and willing. A people-oriented horse, she makes everyone look good that works with her.

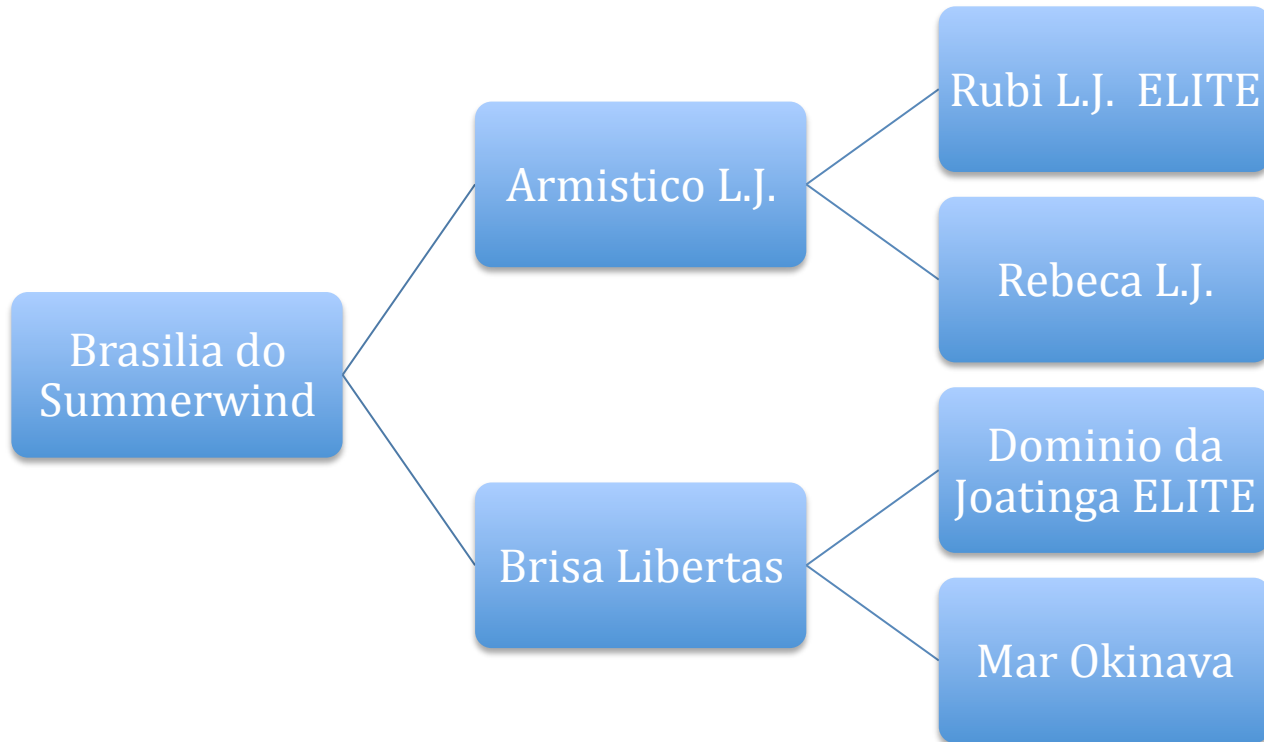

Brasilia is very solid and strong, a miniature Andalusian! Her gait is a classic batida, but with footfalls so fast and rhythmic, she is one of the smoothest Marchadors I have ridden. Brasilia has a confident personality. She was bred for her first foal in 2009 so pictures will be added soon. We expect to be impressed!

Inspected and approved for breeding by the ABCCMM.

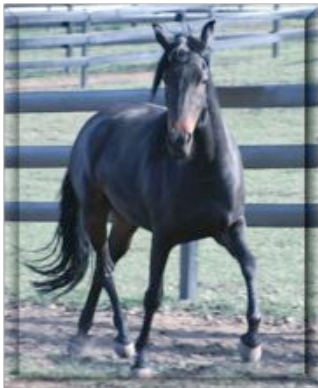

Breed to Brasilia for these results:

- ✓ Beauty with well-balanced proportions
- ✓ Energetic and vibrant personality
- ✓ Confidence and bold movement
- ✓ Superior batida gait
- ✓ Athletic, versatile sport, show or pleasure horse
